ABOUT ME

Detail-oriented undergraduate student with hands-on experience in web development, data analysis, and Linux-based systems. Skilled in Python, JavaScript, SQL, and HTML/CSS, with exposure to shell scripting, LLM-based applications, and project-based development. Actively building real-world applications through IIT Jodhpur's experiential learning and LeapStart's industry-oriented curriculum.

EDUCATION

Indian Institute of Technology Jodhpur | 2025-2029

Bachelor of Science: Applied AI and Data Science

- Focus areas: Python, Data Science fundamentals, SQL, Web Development, Algorithmic Thinking
- Completed end-of-semester capstone projects across three subjects applying concepts to real-world problems

LeapStart School of Technology | 2025-2029

Experiential Learning

- Hands-on training in Linux systems, networking, web development, and SDLC
- Completed a 2-week SDLC workshop with a full mini-project lifecycle

PROJECT

- PlayHub - Web platform for sports facility booking (chatbot-assisted)
- Honey - Voice-enabled AI study assistant
- Lexis - Live lecture note-taking & summarization tool
- Blood Bank App - SDLC-based web application (FRD + prototype)

ACADEMIC & LEARNING HIGHLIGHTS

- Completed multiple end-of-semester capstone projects at IIT Jodhpur
- Hands-on exposure to SDLC, FRD creation, and project presentations
- Experience with real-world datasets, web prototypes, and AI-assisted tools

WORK EXPERIENCE

Freelance (Fiverr)

Data Cleaning & Formatting | May 2024 - June 2024 | Remote

- Cleaned and organized raw datasets by removing duplicates and correcting inconsistencies.
- Formatted data for better readability and usability using Excel and Google Sheets.
- Improved data accuracy and structure to support client reporting and analysis.

SKILLS
